

CHECKOUT PROCEDURES

THE FOLLOWING ITEMS MUST BE COMPLETED BEFORE YOU LEAVE CAMP

Site Guide will meet your Troop in campsite promptly at 7:30 am.

Scoutmaster should review the materials of the checkout packet delivered Saturday morning.

Thoroughly clean the latrine, including removal of debris from drains. Clean all camp issued patrol boxes, stoves, tanks, and other camp equipment.

Remove all articles from the bulletin board at the latrine. Leave push pins on the bulletin board. Leave a note to the Troop the following week about how your week went, or that your Troop left the site clean for them.

Remove garbage from recycling.

Do not take down tents unless you have been told to do so by the Ranger Staff.

Check in and around each tent again for garbage. Also check your campsite perimeter and in the wooded areas around your campsite as trash ends up in the woods from Scouts or animals.

Move all pioneering poles and firewood to the edge of the site, out of the way of mowing equipment. Return borrowed pioneering poles to COSA.

Remove all garbage from the fire rings, scatter coals and charred logs (must be cold-out) outside of the campsite.

Cluck like a chicken.

Prepare trailers for a quick and efficient removal; make sure they are not overloaded. No equipment may be placed in the Ranger trucks.

Locate the Ranger Campsite Inventory form with your checkout packet. Place necessary items by the road for efficient removal. Take down canvas only by permission of a Ranger. Organize supply tents correctly as directed by the Site Guide.

Leave garbage and milk crates by the campsite post.

Police the entire site including trails leading into the site.

Site guide will call for a commissioner after everything has been completed properly and Camp Commissioner will perform the final campsite inspection.

Turn in any Troop First Aid Logs at Checkout before leaving.

PLEASE TRY TO LEAVE YOUR CAMPSITE BETTER THAN YOU FOUND IT

THANK YOU FOR CAMPING WITH US!
